Why are you interested in serving on this committee?	As a high school student I was able to participate in a sail training program that had me onboard a 130' all wooden schooner sailing from Massachusetts to Puerto Rico over 9 weeks. I fell in love with all things boats and realized how important they are to maritime communities. Becoming a committee member and giving my knowledge, energy, and work ethic to helping revitalizing a critical part of Vallejo is something I want to be a part of.

<p>What skills, experience and/or knowledge would you bring to this committee?</p>	<p>In a previous career I was a branch manager for Enterprise Rent-a-Car(ERAC), and became adept at managing and growing a business based on rentals and occupancy, something that a marina has to excel at. ERAC also was an industry leader in customer service, taking the philosophy that a happy customer will stay with the company and also tell others of their positive experiences. This skill set of building a rental business through excellent service is something I can bring to the Marina Advisory Committee.</p> <p>My work as a small business development volunteer in Peru also taught me how to work with a diverse group of stake holders when trying to bring parties together to form associations and businesses. I imagine that the Marina also has a diverse number of stake holders that all have differing agendas. My previous experience in this area makes me well positioned to help build consensus.</p>
<p>Why is the marina important to the City?</p>	<p>The Marina is critical to the city for many reasons. It allows residents to enjoy positive recreational experiences on the water, is a destination for visitors, and is a public space where people can exercise (I run there multiple times a week). It is an economic engine and source of future growth. It provides space for current businesses and it book ends the downtown side of the waterfront. The Vallejo Waterfront Planned Development Master Plan outlines how the the marina will be an important piece of further economic development in the area. The Marina also provides a chance for youth to learn about maritime activities and maybe most importuning, it ties our community to its maritime roots.</p>
<p>The committee generally meets once a month on the first Thursday at 5:00 p.m. Will this be a problem with your schedule?</p>	<p>No.</p>
